TAYLORS

Creative Living

At Taylors we have developed a passion for finding interesting, commercial products, ranges of furniture and have established an unrivalled reputation for both quality of products and customer service.

Working closely with factories throughout Asia, we aim to help communities whilst producing beautiful pieces of furniture that will provide many years of functionality.

Naturally we are committed to the environment and a large percentage of the pieces we sell are made from both reclaimed and recycled timbers. Where this is not possible we strictly adhere to our legal and ethical obligations in the selection of timbers and will only use legally harvested trees from carefully managed forestry plantations.

Alongside our environmental commitments, we are also passionate about fair trade and deal with our carefully chosen suppliers in a respectful and ethical manner focusing on building long term relationships and beautiful furniture.

Stylish furniture that doesn't cost the earth

At Taylors Creative Living, we believe in creating a better business so we can help create a better world

At Taylors, we have genuine concern about protecting the environment and the future of the planet. What we do today, will impact what happens tomorrow.

We have a strong commitment to advancing sustainable practices, reducing our impact on the environment and championing sustainability.

So, wherever we can, we use renewable or recycled materials. Creating furniture that not only adds to the beauty of your home, but helps the planet stay beautiful too.

Taylors Fair Trade: Sustainable products are not just good for the planet. They are good for people.

Our Revival Furniture is a collection with a conscience. By choosing a piece for your home, you are personally helping support the indigenous people, their families and communities in the Gujarat, Rajasthan and Noida regions of India. Because all our highly-skilled craftspeople personally benefit from every piece of furniture that they make for us.

Our 'Revival by Taylors' sustainable collection, has both Hamilton and Balmoral ranges:

Hamilton

Our Hamilton Storage Stools are made from 'bagasse' - the fibrous plant leftover from sugarcane after the sweet juice has been extracted. We then upholster the stools with natural materials like wool, cotton and jute, adding both style and texture.

This sustainable approach supports a circular economy and benefits the environment. No trees are cut down, no wood, paper or cardboard is used. Plus, even the box it arrives in is made from bagasse. Helping to reduce deforestation, so more carbon can be captured.

Balmoral

This sustainable furniture is lovingly handcrafted from reclaimed wood, sourced from century-old buildings such as schools, houses and factories. By repurposing wood that would otherwise be discarded, each piece of Balmoral Furniture is given a new lease of life, reducing waste, deforestation, and carbon footprint.

Every piece carries a unique story, adding not just character to a home, but also a sense of history and purpose.

***Style for the future:** Our Hamilton and Balmoral furniture is just the start. At Taylors, we have a strong commitment to creating a better world by increasing our range of sustainable products in the future.*

Revival is stylish furniture that doesn't cost the earth as it helps you with your Environmental, Social and Governance (ESG) goals and helps the world.

Stylish furniture that doesn't cost the earth

Hamilton Collection

Beautiful. Functional. Sustainable.
